Summary

I'm an incoming freshman at UC San Diego, aspiring to become a software engineer/computer engineer.

Education

UC San Diego

Bachelor of Science - BS, Computer Engineering

2022 - 2026

Licenses & Certifications

CS50x - CS50

Skills

Programming • Python (Programming Language) • Arduino • C • Problem Solving • Resiliency • Easily Adaptable • Critical Thinking • Leadership

Honors & Awards

USIL "Challenge your ingenuity" contest - Winner - Universidad San Ignacio de Loyola

Oct 2020

USIL organized an engineering contest in which participants had to create a Rube Goldberg machine. The machine's end goal was to switch a light switch on.

For winning the contest, I earned a certificate and a tablet.

Interscholastic English Tournament — Winning team - Universidad del Pacífico

Aug 2019

Universidad del Pacífico organized a quiz bowl competition in which many teams of students from different schools participated.

I was part of a team of four students that represented my school. Our team made it to the finals and won the competition in the first place.
